There are not many of them, although Judge O'Renr thinks there are enough of them to nominate him for Governor. He is mistaken. They can not get into Republican conventions. If all the Republican night riders in Kentucky should atlend the convention in Christian County, where he opened hts campaign, there would not be enough of them to carry that county for Judge O'Rear, beenuse there are more law and order people in Christhan County than there are Repulof Kentucky. Which side was be on?" Judge O'Rear's friends are boasting that he went into my district to open his campuign, and a paper supporting him said, "O'Rear has were eight other districts in the State which had no candidates for Governor, and in courtesy he might have gone to any one of these. Not satis fied with invading my district, he has designs on my county, as is evident precinct committeemen of that county. Since Judge O'Rear made his aunonneement I have not so much as demands certain things of a candidate for the high office of Governor, and no man understands that courtesy better than Judge O'Rear, but ambition has dethroned courtesy, and the has dethroned courtesy, and the temptation was so great that he could not resist it. Indge O'Rear, of course, has the right to conduct his campaign as he sees fit, but when n man counts into my district and throws down the gauntlet, and all because my stand for law and order, for peace and quiet and security and the rights of the citizen, much as 1 opposed and am opposed to a speaking campaign for the nomination, I accept the gage of battle, and to the tust of my ability will defend my cause. The Repub-licans everywhere say that my stand for law and order was right, but some who are supporting other candidates say that if I should be nominated the night riders would vote against me. Of course they will vote against me, but for every night-rider Republican that I lose I shall get two Democrats, law-amil-order Democrats, in his place I have no fear of the result on that score. Give me the nomination and I will take care of the night riders.

Gentlemen, my stand when I went among the night riders in 1908 and denounced them to their faces at their county sents, with signs of their devil-lry before my eyes and the threats of their vengeance ringing in my eacs my stand, I say, was right or it was wrong, and I want the Republic in party to say which side it will take
